Welcome to Paris Expo Porte de Versailles - an exceptional site just 15 minutes away from the Eiffel Tower!

Paris Expo Porte de Versailles is an internationally renowned venue where each event is given maximum visibility to make sure it really stands out.

The site has over 210,000 sqm of exhibition space, housed in 7 pavilions, including a vast 51,000 sqm space and a plenary hall that can seat 5,200 guests. Pavilion 6, which opened in late 2019, is a breathtaking contemporary building whose green roof is fully in line with Viparis’s CSR commitments.

The recently-inaugurated Mama Shelter and Novotel hotels, combined with Le Perchoir, our rooftop bar and restaurant, make this exhibition complex a unique destination in Europe.

The international crises we are experiencing are having an impact on energy costs, as they are everywhere. Viparis has assumed the additional costs in 2022, but is obliged to impact part of these increases on its rates in 2023. We will work with you as the earliest to make events more energy-efficient in the interests of economy and ecology.

We will do everything we can to make your guests’ visit an unforgettable experience. The entire Paris Expo Porte de Versailles team is delighted to welcome you and will put its expertise into making your event a success.

This guide will provide you with everything you need for a stress-free event. In its pages, you’ll find details about our various spaces, services and rates, along with useful information and much more.

Our Project Managers are standing by, ready to assist you. This guide will help you make the most of Paris Expo Porte de Versailles.

Enjoy your reading!

A few facts and figures

PARIS EXPO PORTE DE VERSAILLES, A UNIQUE SITE

♦ A world-renowned and historic venue that is number one in Europe in terms of number of events
♦ An international meeting-place that is a cornerstone of Parisian life
♦ The capital's most prestigious events
♦ Easy to access from multiple means of transport

A DYNAMIC AND VERSATILE SITE

212,545 SQM OF EXHIBITION SPACE IN PARIS

200 EVENTS THROUGHOUT THE YEAR

72,000 SQM OF GREEN SPACES

Information about ongoing works is available at www.renovation-portedeversailles.com
A few facts and figures

**AN ACCESSIBLE SITE** WITH EVERYTHING YOU NEED

**A WIDE RANGE OF ACCOMMODATION**
...more than twenty 3- and 4-star hotels nearby. Since 2019, Paris Expo Porte de Versailles has opened two unique concept hotels: a 205-room Mama Shelter and a 245-room Novotel.

**A FIRST-CLASS TEAM**
...an experienced, proactive and motivated team to help you throughout the process, providing advice and ensuring that everything is precisely installed so that your event is a complete success.

**CONNECTED TO ALL MAJOR EUROPEAN CAPITALS**
...in the heart of Europe, a site less than 3 hours away from every European capital. A site in the centre of Paris, close to the Eiffel Tower with Parisian life just steps away.

**AN ECO-RESPONSIBLE SITE**
...located at the centre of a green landscape of more than 70,000 sqm and 50,000 sqm of green roofs. Our world-class facilities reflect our environmental commitment, both inside and out.
OUR ONLINE ORDERING SYSTEM

Streamlined presentation and ordering, and a simplified user experience – Exhibitor Services has updated its online ordering system... EPEX is now Viparis Store.

Create your new customer account in just minutes* and discover what Viparis Store has to offer.

A SINGLE CUSTOMER ACCOUNT
for ordering services, and a direct link to Logipass without switching usernames.

IMPROVED TRACKING OF YOUR ORDERS,
from shopping lists to invoicing, with a complete log of past messages.

AN EXTENSIVE CHOICE
of products and services for your stand, provided by Viparis and a selection of accredited partners.

CLEARLY-PRESENTED SERVICES
with detailed technical descriptions to help you make the right choice.

AND, AS ALWAYS,
« GUEST ATTITUDE «,
our service policy – ongoing support from a team of dedicated experts who can assist you via phone, email and chatroom.

* Your EPEX login details are not valid for Viparis Store.

Our Exhibitor Department

A DEDICATED, FREE-OF-CHARGE SERVICE FOR YOU AND YOUR CUSTOMERS
We have a separate team that helps your exhibitors choose and implement the services that best match their needs. From order to installation, our team provides customised, detailed follow-up to ensure your exhibitors receive the best service per square metre.

THE BENEFITS FOR YOU
◆ Advice about the services to offer your exhibitors
◆ Ongoing updates about the state of exhibitors’ orders
◆ Attentive follow-up, both upstream and on site, to ensure your event opens and operates under the best possible conditions

THE BENEFITS FOR YOUR EXHIBITORS
◆ Tailored, proactive advice by teams with an in-depth knowledge of the site
◆ Technical solutions customised to meet their needs
◆ On-site reception at your sides

THE EXHIBITOR DEPARTMENT TOOLS
◆ An online ordering system: www.viparisstore.com
◆ The Exhibitor Services Guide
◆ A call centre staffed by a multi-lingual team
◆ Trained, on-site teams of reception staff
◆ Approved partners offering services tailored to our sites

Viparis’s approach to quality

THE ART OF HOSPITALITY
At Paris Expo Porte de Versailles, as at all our venues, we strive to offer you the best service per square metre. As part of our Guest Attitude policy, we carry out continual quality checks to ensure a positive experience for all visitors, paying particular attention to the welcome they are given, along with signage, car parks, toilets and meeting areas.

LET’S TALK
We value our customers’ feedback, because it helps us improve what we do. For this reason, as soon as your event is over, we send a satisfaction questionnaire to you and your exhibitors. We then organise a debriefing meeting to assess your experience and discuss areas for improvement.
Our CSR initiative
Better events - Viparis 2030

3 KEY ISSUES, 9 GOALS

Over the past several years, Viparis has worked to reduce its environmental impact and to share best practices with its customers and partners. In 2014, Viparis was the first events management firm to earn ISO 20121 certification (the highest international accreditation for sustainable events management) for all its sites.

In 2016, to help roll out our sustainable development strategy on a daily basis at every venue and within the company, Viparis appointed a group of CSR “ambassadors”. In 2018, after monitoring our carbon footprint and actively engaging with our stakeholders we launched our CSR programme – Better Events - Viparis 2030. These goals will be fulfilled by meeting precise and quantifiable objectives.

Viparis has now consolidated its CSR commitments around three main themes – Better for the Environment, Better Heritage, and Better @ Heart, which reflect the three cornerstones of sustainable development. These will enable Viparis to contribute to the UN’s Sustainable Development Goals at a local level.

1 BETTER FOR THE ENVIRONMENT: A SMALLER ENVIRONMENTAL FOOTPRINT

By 2030, Viparis intends to cut its sites' carbon footprint by 50% as compared to 2016 levels. As a signatory to the Net Zero Carbon Events pledge, Viparis is also committed to achieving net zero emissions by 2050. This will involve reducing our energy consumption and making our buildings more sustainable. At the same time, Viparis is working to protect the environment and its resources by recycling waste and reintroducing biodiversity at its venues. We are also dedicated to promoting better mobility by encouraging visitors to use sustainable transport and by streamlining event-related logistical flows.

2 BETTER HERITAGE: EVENT-BASED VALUE CREATION

By offering an increasing number of sustainable services and forging ties with socially committed partners, Viparis’s business activity has roots throughout France. We rate our partners using CSR criteria, and they play an active role in helping us fulfil our CSR objectives.

3 BETTER @ HEART : FOCUSING ON OUR TEAMS AND PROMOTING DIVERSITY

As part of our CSR programme, we also take our employees’ concerns to heart. We make sure that they are fully part of our vision via annual CSR objectives and measures introduced at each venue. Viparis also seeks to promote diversity by encouraging gender parity, generational diversity and an inclusive workspace for individuals with disabilities.

OUR PROMISE TO OUR CUSTOMERS
Spaces and services for responsible events and value creators.
Your Project Manager can provide simplified plans of your space(s).
On-site facilities

Paris Expo Porte de Versailles’s many on-site resources will make your life easier, and help you manage your event with complete peace of mind.

**CAR PARKS**
There are a number of car parks for exhibitors and visitors. Please contact your Project Manager for more information.

**CENTRAL WALKWAY**
Numerous services are available along the central walkway, including reception facilities, our concierge service, restaurants, shops, ATMs, lounge areas fitted with connected furniture, toilets with baby changing areas, and more.

**THE DIGITAL PLAZA**
The Digital Plaza, which greets visitors arriving via the complex’s main entrance at Gate A2, is a ring of LED screens 40 metres in diameter. It provides a panoramic overview of the site’s activities, guiding and directing guests to your event’s pavilion(s).

**METRO, TRAMWAY and BUS**
Paris Expo Porte de Versailles is accessible by multiple means of public transport, including Metro line 12, Tramway lines T2 and T3, Bus 80 and 39, etc.

**TAXI**
A taxi stand is located right next to the complex at Gate A1.
Key points

Is this the first time you’ve organised an event at the Paris Expo Porte de Versailles? Rest assured – we’ve thought of everything so that your first event takes place under the best possible conditions.

THINGS TO KEEP IN MIND

♦ Have a thorough understanding of the technical plans of your hired spaces before drawing up your specifications

♦ Select the services you need to make sure your event runs smoothly
  ▶ Reception and security services (guards and security personnel, cloakroom attendants, reception staff, etc.)
  ▶ Cleaning services (service providers, on-duty staff, etc.)
  ▶ Connections (electricity, water, Internet, etc.)
  ▶ Interior and exterior signage (tarps, in-house displays, etc.)
  ▶ Food services (caterers)

♦ Keep your exhibitors informed (Viparis has an Exhibitor Department offering customised solutions - see pages 8 and 9)

AT YOUR SERVICE

At Viparis, customised services are not just empty words. As soon as your hire agreement is signed, a Project Manager is assigned to your event. He or she will be your primary contact throughout the setup and operational phases. The Project Manager coordinates the work of Viparis’s various logistical and technical partners and can recommend possible solutions based on your needs.
Essential steps

HIRE AGREEMENT SIGNED
Your Project Manager sends you a letter of introduction.

NEEDS ASSESSMENT
If you need support from Viparis’s Exhibitor Services, the team will contact you to assess your needs.

APPLICATION SUBMISSION
The Safety Supervisor receives the application or is notified that an application for exemption has been filed directly with the Prefecture.

COMPLIANCE ASSESSMENT
The Paris Convention Centre’s Safety Supervisor decides whether the application is in compliance (if your event requires it).

APPLICATION FILED WITH THE PREFECTURE
If the Safety Supervisor finds that the application is not compliant: submission to the Prefecture

START OF PRODUCTION
Viparis launches production and orders services.

DAY 1
Inventory of fixtures, fittings and equipment with the Viparis inventory Manager. Your Project Manager presents you with the keys to your spaces and a list of useful contact numbers.

SETTLEMENT OF INVOICES
Preparation for site inventory

SERVICES AND SITE ASSESSMENT
You will receive an e-mail containing a link to our quality questionnaire (qualite@viparis.com) so you can give us your impressions of Viparis’s services. When we receive the questionnaire, we will offer to schedule a debriefing meeting so that we can further improve your next event.

FINAL STEP
You will receive an e-mail summarising all orders placed with Viparis and the corresponding invoices.
# Our full range of services

## Types of Services

### What’s Included in Your Hire Agreement?
- Included charges
- Additional charges

## Included Services
- Traffic management

• Public toilets  
• Reception  
• Presence of a manager from Paris Expo Porte de Versailles representing Viparis management | Schedule applied upon written request from the LESSEE |
Traffic management

To keep both people and equipment safe, Viparis has introduced a vehicle access control procedure.
To access the loading zones, vehicles must be registered using the logipass.viparis.com website prior to their arrival at the venue.
Your Project Manager is available to help you set up this registration process.

REMINDER
As part of the transformation of Paris Expo Porte de Versailles, we have completely redesigned the complex’s logistics to free up space near the pavilions that are open to the public. Parking is prohibited within the complex during the period your event is open to the public (VIP zone excluded).

VIPARIS’S CUSTOMISED LOGISTICS

VIGILANCE IS EVERYONE’S JOB

<table>
<thead>
<tr>
<th>An efficient solution</th>
<th>A common goal</th>
<th>A single resource</th>
</tr>
</thead>
<tbody>
<tr>
<td>Improving event logistics through a smoother setup and breakdown process</td>
<td>Greater efficiency and time savings</td>
<td>A dedicated IT application to manage logistics, traffic and parking both before and after every event, and at every one of our sites</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>A targeted approach</th>
<th>A simple and effective process</th>
</tr>
</thead>
<tbody>
<tr>
<td>Every company, exhibitor and contractor involved in events and performances</td>
<td>Improved reception for both customers and exhibitors A better match between our newly fitted-out spaces and the services and logistics we provide.</td>
</tr>
</tbody>
</table>

Only the Logipass registration process is included in your hire agreement. Traffic control is an optional service.
On-duty electrical support

To guarantee the safety of all persons on the premises of Paris Expo Porte de Versailles, and in application of French law (Decree of 18 November 1987) concerning public access buildings, technical staff are present as soon as power is supplied to the power boxes.

RESPONSIBILITIES

- To immediately respond to any technical incident that could disturb either the smooth running of an event or disturb visitors and exhibitors
- To ensure the operation of the various electrical networks, in accordance with guidelines established by the Organiser
- To make basic repairs to stand connections (except in case of gross negligence or damage to the equipment)
- To provide Organisers with general technical assistance

THE NUMBER OF ON-DUTY TECHNICIANS DEPENDS ON THE PERIOD

<table>
<thead>
<tr>
<th>Included (as soon as power is supplied):</th>
<th>Not included (during the time when power is supplied):</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 electrician for each 6,000 sqm of floor space when the event is open to the public from 9am to 7pm, except for Sundays and holidays</td>
<td>1 electrician for each 12,000 sqm of floor space during setup and breakdown and as soon as power is supplied to the power boxes from 7pm to 9am, as well as all day Sundays and holidays</td>
</tr>
<tr>
<td>1 electrician for each 12,000 sqm of floor space from 9am to 7pm during setup and breakdown, and as soon as power is supplied to the power boxes</td>
<td>1 electrician for each 100,000 sqm of floor space: not including periods of activity (setup, breakdown and event opening hours) and as soon as power is supplied to the power boxes</td>
</tr>
</tbody>
</table>

Not including periods of activity and as soon as power is supplied, a portion of the cost of duty staff shall be applied and invoiced on a pro rata basis for all occupied spaces, all events combined.

FOR RATES SEE PAGE 52
Public address system for the pavilions

PAVILION PUBLIC ADDRESS SYSTEM
Paris Expo Porte de Versailles has a public address system that covers all of the various spaces. Coverage can be adapted for individual spaces. Contact your Project Manager for advice on the best solution.

SERVICES PROVIDED
• Supply and setup of public address system equipment
• Electrical energy consumption
• Maintenance during your event’s opening hours

FOR RATES
SEE PAGE 53

Override

All installations that involve sound (presentations, fashion shows, conferences, etc.) must be fitted with an override box that will allow you to broadcast warning messages if necessary.

Your Project Manager will be happy to assist you in setting up the override.

SERVICES PROVIDED
• Use of a electronic box for broadcasting warning messages

USEFUL TIP
The override box is placed on a terminal box. Please specify exactly where this terminal box should be placed.

FOR RATES
SEE PAGE 53
Slings

The installation of your event may require slings.

**SERVICES PROVIDED**

- Feasibility study based on the weight to be suspended and its location
- Use of an elevated platform for installation
- Placement at desired location and height
- Technical support throughout the event
- Breakdown

**REMINDER**

For safety reasons, slings can only be installed by Vîparis. A sling may not bear more than 80 kg.

- Vîparis shall hang all slings in all pavilions with the exception of standard lightweight signage indicating basic services and aisles at the event, provided that the total weight is less than 3 kg.
- Certain areas in the complex are not suitable for slings (beneath the ring road).

Please refer to the Specific Terms and Conditions of the Lease for further information.

**IMPORTANT**

_Sling under the Paris ring road_

Further to the various studies, validations and justifications made by the design offices EBBM and LP2 B, the rule concerning the subject of the sub-peripheral slinging of Pavilions 3 and 4 is as follows:

1) Maximum permissible mass/point: 40 kg (weight=0.39kN)
2) Type of hook: in direct stitches under fishnet (V stitches are prohibited)
3) Location of the hooks on the net: around the supports in threaded rod up to 1m50

**NB1:** the hook under the support is forbidden

**NB2:** in case of twisting of the line, installation is forbidden

**Spreaders Hall 1**

**ATTENTION - YOUR SLING ORDERS / HANGING POINTS UNDER THE NAVE OF HALL 1**

The infrastructures of hall 1 have evolved for more thermal comfort.

The booths located under the new ducts of the nave may need to use preriggs to hang lighting trusses and other equipment on hanging points.

These installations can lead to an additional cost in your orders.

We are at your disposal to study with you the technical solutions adapted to your needs, contact us.

Your Project Manager is at your disposal
Suspended rotating displays are driven by an electric motor.

SERVICES PROVIDED:
- Hire of rotating unit
- Installation of slings and unit
- Power supply setup
- Installation of the suspended signage (power box and electrical consumption are not included)

Signage

EXTERIOR AND INTERIOR SIGNAGE

Enhance the visibility of your event using the various displays on building façades and along pedestrian walkways. Signage at various strategic locations (both inside and outside) can help guide your visitors and publicise your event.

USEFUL TIP

Viparis has entrusted Metropole, a company specialising in event signage, with the exclusive management of the marketing of these displays, as well as the printing, packaging and installation of various supports (tarpaulins, PVC materials, adhesives, etc.). Metropole’s teams will be happy to help you with your signage concept and draw up technical and commercial offers best suited to your needs.

Metropole can also provide advertising management solutions for offering your exhibitors and sponsors fixed and event-based displays.

For more information, see «Advertising Displays» in the Lessee’s Information Booklet. Contact the advertising agency for more information.

Thanks to Next’One, you can place advertising in the Paris Expo Porte de Versailles toilets.

Size: portrait orientation 29.7 x 42 cm. • Digital displays: 40 x 55 inches

For more information, please contact Next’One at: +33 4 79 60 09 34 - www.next-one.fr
Electricity and utilities

ELECTRICITY

Energy is supplied by Viparis as a 50 hertz 3-phase current with an average voltage of 400 volts between phases or 240 volts between phases and neutral. Current is distributed by a terminal box fitted with a 32 amp four-pole circuit breaker and 32 mA differential switch (to protect people), which Viparis representatives must be able to access at all times. Current is distributed in accordance with a power supply schedule determined in coordination with your Project Manager.

ELECTRICAL CONNECTIONS FOR ORGANISERS

Permanent electrical connections for your use only, for example to power your central management office, press room, forum, reception area, etc.

SERVICES PROVIDED

• Installation of a terminal box fitted with a circuit breaker (30 or 300 mA, depending on the requested wattage)
• Terminal box installation and removal by qualified staff at the location requested
• Technical support 24/7 throughout your event

REFERENCES AND RATES

Energy consumption is invoiced after your event.

OUR CUBE ELECTRICAL BOXES

The CUBE, new electrical box occupies a minimum of space on the stand floor. You can adjust the power from 1 to 20 kW.

• 3 single-phase socket outlets
  16A - 230V - 1P+N+E
• 1 three-phase 32A socket
  32A 230V/400V
  CEE type/P17 3P+N+E
• 1 USB 2A - Type A socket, permanently powered
• Height : 40 cm - Width : 37,5 cm - Depth : 30 cm

REMINDER

Power (kW) is the ratio of voltage multiplied by intensity. (P=U x i) Ohm's law.
U is expressed in volts and i is expressed in amps
• The formula according to EDF gives (cos = 0.95):
c P (kVA) = 1,667 x i (A) c i (A) = P (kVA) / 1,667
Electricity and utilities

FIXED-PERIOD AND PERMANENT ELECTRICAL CONNECTIONS
- **Fixed-period connections**: current is available each day during the hours when power is supplied to the event, as agreed with your project manager;
- **Permanent connections**: necessary for equipment that requires a round-the-clock power supply (such as refrigeration or computer equipment). Current is available 24/7 for the agreed power supply period.

SERVICES PROVIDED
- Installation of a terminal box fitted with a circuit breaker (30 or 300 mA, depending on the requested wattage)
- Connection and removal of the terminal box by qualified staff at the designated location
- Electrical power for the duration of your event
- Technical support throughout your event

REFERENCES AND RATES
Prices are based on the number of hours power is supplied. Contact your Project Manager for a quote based on a unit price.

FOR RATES SEE PAGE 55

WORKSITE ELECTRICAL POWER
This provides Exhibitors with the electricity they need during setup, before power is supplied to your pavilion, and during breakdown after the end of fixed-period and permanent power supply.

SERVICES PROVIDED
- Installation of a terminal box fitted with a circuit breaker (30 or 300 mA, depending on the requested wattage)
- Electrical power for the agreed-upon period
- Technical support

REFERENCES AND RATES
Price on request. Please contact your Project Manager.

USEFUL TIP
During setup and breakdown, an exhibitor can order a higher or lower worksite electrical power than his initial order. If the power requires a change of electrical box or cabinet, an installation and removal will be charged to the exhibitor.

GENERAL TERMS AND CONDITIONS
- Boxes may only be opened by Viparis approved individuals.
- Each connection may only supply a single stand.
- Any installations beyond the terminal box must be carried out accordance with accepted industry practices under the responsibility of the organiser or exhibitor.
- Sound systems must be connected to a specific terminal box that can be overridden by the building’s fire safety system (see page 56).
Electricity and utilities

ELECTRICAL WORK FOLLOWING CONNECTION

SERVICES PROVIDED
In addition to providing electrical connections, Paris Expo Porte de Versailles can also take care of your event’s overall electrical needs, including providing power to your various spaces, installation of sockets, lighting for stands, etc.

Service includes:
• Equipment hire
• Installation and removal
• Technical support
Since each installation is unique, please contact your Project Manager for a quote based on your requirements.

The differentials for the boxes are calibrated to 30 mA

Electrical cabinets of 30 kW and more are not equipped with sockets.
WATER AND COMPRESSED AIR

WATER SUPPLY
Paris Expo Porte de Versailles can offer water hookups. Your Project Manager will be happy to review your requirements.

SERVICES PROVIDED
• Hire of equipment required for water supply and evacuation:
  - A 15/21 diameter inlet pipe ending in a stop valve with a threaded male outlet
  - A 32/40 mm flexible wastewater drainage pipe linked to the complex’s drainage system
• Connection at the required location and breakdown after use
• Water consumption
• Technical support throughout your event.

Please refer to the Specific Terms and Conditions of the Lease for further information.

SERVICES PROVIDED
• Equipment hire
• Installation and removal
• Technical support
• Connection included

USEFUL TIP
Water heater hire does not include electrical connections. If you connect your equipment yourself, you must ensure it complies with regulations concerning connections to drinking water systems.

Please refer to the Specific Terms and Conditions of the Lease for further information.

COMPRESSED AIR CONNECTIONS
Paris Expo Porte de Versailles offers compressed air for some spaces, with a maximum pressure of 6.5 bars. For Halls 7 and 8, contact your Project Manager.

SERVICES PROVIDED
• Installation of an air inlet hose with a cut-off valve
• Compressed air treated at an average pressure of 6.5 bar during pressurisation periods defined by the organizer (oiled and non-dried compressed air, expansion valve not supplied)
• Technical support
• Breakdown

ADDITIONAL EQUIPMENT HIRE
Do you need additional equipment? Paris Expo Porte de Versailles can provide additional equipment such as sinks, water-heaters and mobile toilets.

REFERENCES AND RATES
Price on request. Please contact your Project Manager.
Our services

ETHERNET CONNECTIONS AND OPTIONS

Viparis can offer you symmetrical Ethernet connections with guaranteed bandwidths.
Symmetrical connections provide equal upload and download speeds.

Each client is given access to an independent, secure virtual local area network (VLAN) via an RJ45 male Ethernet connector cable.

It is important to pick the bandwidth best suited to your needs (email, downloads, etc.) and think about the number of simultaneous users.

Too many users connecting simultaneously may overload the network and cause pages to load more slowly.

Use the following table to choose the bandwidth best suited to your needs.

<table>
<thead>
<tr>
<th>CHOICE OF SPEED DEPENDS ON USAGE</th>
</tr>
</thead>
<tbody>
<tr>
<td>DSL Internet connection</td>
</tr>
<tr>
<td>6 Mbps</td>
</tr>
<tr>
<td>10 Mbps</td>
</tr>
<tr>
<td>20 Mbps</td>
</tr>
</tbody>
</table>

Recommended | Adequate | Not recommended

SERVICE INCLUDES:
• Internet installation and connection
• Male RJ45 Ethernet connector cable
• Technical support throughout your event

REMINDER
• Computers require a 10/100/1,000 Mbps Ethernet card.
• Computer configuration is not included in the services provided by Viparis.
# Telephony, Internet and Wi-Fi

All the multimedia equipment you need to effectively interact with your visitors.

## Telecommunications

### Wired Telephony

Viparis can install domestic and international communication lines. Our high-quality telephone service offers all the features you need (call waiting, call forwarding, etc.). Consult your Project Manager for any specific requirements you may have.

**Services Provided**

- Equipment hire
- Line installation
- Free calling between in-house lines, locking, call waiting, etc.
- Technical support

## Internet & Networks

### Ethernet Connections and Options

Paris Expo Porte de Versailles provides high-quality DSL Internet access, with identical upload and download speeds. Each customer has an independent, private and secure VPN.

**Services Provided**

- Installation and setup of lines
- A male RJ45 Ethernet connector
- Technical support throughout your event

For Rates See Page 57

### Exclusive Optional Services

All the multimedia equipment you need to effectively interact with your visitors.

### Make the Right Choice

Pick the bandwidth best suited to your needs (email, downloads, browsing) and evaluate how many users will be connecting simultaneously (too many users connecting at the same time can saturate the network):

- Chat, e-mail (not including attachments) and web browsing: 4 Mbps
- Videoconferencing, placing orders/VPN, file transfer, streaming and stand demonstrations: 10 or 20 Mbps

### Reminder

- Computers require a 10/100/1,000 Mbps Ethernet card.
- Computer configuration is not included in the services provided by Viparis.

For Rates See Page 57
FREE WI-FI
Viparis offers free Wi-Fi access in all of its spaces.

Technical aspects
- Network name non-customisable.
- 4Mbps maximum in hired spaces in public areas
- Network operates on the 2.4
- Open Wi-Fi network with captive portal

WI-FI HOTSPOT
The WIFI HOTSPOT package allows you to provide your visitors and/or exhibitors with Internet access that is customised to match your event. It deactivates free Wi-Fi in areas where it is installed.

You can:
- Customise the name of your network
- Make access password-protected (8-character WPA2 key)
- Require users to enter their full name and e-mail address when they first connect to WI-FI HOTSPOT
- Set up a customised home page using a Viparis template
- Automatically redirect the Internet connection to the site of your choice.

Technical specifications
- Customisable network name and home page.
- Maximum data rate per connection: 8 Mbps.
- Frequency band: 5GHz (2.4GHz also possible).
- Optional and customisable login and password.
- Number of simultaneous connections based on spaces occupied by your event.
- Initial connection to a website of your choice
- Unlimited connection time automatic disconnection after 30 minutes of inactivity.

WI-FI EXPERT
The WI-FI EXPERT Network package allows organisers to connect to a 5 GHz Wi-Fi frequency band (802.11 a/n) with a mandatory username and a password that can be customised upon request.

Technical specifications
- Automatically disconnects after 30 minutes of inactivity.
- Maximum data rate per connection: 8 Mbps.

WI-FI EXPERT SECURE
This solution provides exhibitors and organisers with high-speed connections for multiple mobile devices (laptops, tablets, latest-generation smartphones) with no disconnection due to inactivity.

It operates only on the 5 GHz (802.11 an) frequency band. Secure connectivity is via Ethernet, and can be used at the same time as Wi-Fi accounts.

You are provided with a single username/password for all connections.

The selected bandwidth is shared amongst all simultaneously connected users.

Technical specifications
- No cut-off due to inactivity.
- No WPA key required. Network security is provided by the 802.1X protocol, which requires authentication.
The private Wi-Fi network is deployed with dedicated Wi-Fi terminals. This service is the most flexible and adaptable. The number of terminals to set up depends on the surface of the stand and the number of desired connections. The access to the network is fully customizable. You can choose its name, assign a security key or not, as well as identifiers. The throughput per user will be 8 Mbps maximum, on the 2.4 GHz or 5 GHz frequency bands. At the end of your event, we can provide you with several Wi-Fi traffic reports: number of connections, speed, etc.

**FOR RATES SEE PAGE 59**

**PRIVATE WI-FI**

**IMPORTANT**

The Wi-Fi offer is not intended to replace Ethernet access, which is the only service that can offer guaranteed speed and security. It complements the cable-based Internet offer. When using radio channels that are highly sensitive to interference, such as the 2.4 GHz frequency band, data transmission via the network may be severely disrupted or even made impossible by sources of interference or external causes that are beyond Viparis’s control. The type of construction or the materials used for your stand can greatly reduce or prevent connection to the network. Moreover, exhibitors using private hotspot networks, microwave ovens, wireless cameras, Bluetooth equipment or other wireless data transmission systems at a stand may disrupt or prevent the connection to the network. Since Viparis does not want to place restrictions on exhibitors using such applications at their stands, it is not possible to guarantee reliable network reception on the 2.4 GHz frequency band.

VPN connections, Internet telephony and live broadcasts via the network cannot be guaranteed. Viparis strongly discourages exhibitors from using their own networks, as these can seriously interfere with Viparis’s infrastructure. Should an exhibitor still wish to use his or her own network infrastructure, this must be declared to Viparis so that a reserved channel can be assigned. The power of the access point will be set to the minimum and should never exceed 5 dBm (3.12 mW), which reduces coverage to 20 m instead of 100 m for the default power of 20 dBm (100 mW). The access point must be set to the reserved channel in the 2.4 GHz or 5 GHz band indicated by Viparis. The name of the network must include the stand’s brand name or a precise reference to the location.

**THE WI-FI SQUAD**

The WiFi Squad – one or more technicians tasked with optimising use of the 2.4 and 5 GHz frequencies. They are also on the lookout for exhibitors’ WiFi hotspots that disrupt the smooth functioning of Viparis’s networks and those of other exhibitors.

**REFERENCES AND RATES**

Price on request. Please contact your Project Manager.

**WI-FI ASSISTANCE**

Help when you need it. Whether you’re having trouble with your equipment, Viparis’s Wi-Fi system or another exhibitor’s network, call our hotline! Our technicians, located in the event’s technical headquarters, will relay your problem to the troubleshooting team. This service is provided free of charge by Viparis.
Car parks and traffic flows

EXHIBITOR AND VISITOR CAR PARKS
The car parks of the Paris Expo Portes de Versailles site are open to welcome your exhibitors and visitors. Parking is free for your exhibitors during the assembly and dismantling. During the opening of your event, your exhibitors and visitors will be able to buy seats parking (subject to availability).

SERVICES PROVIDED
- Use of a convenient car park for light commercial vehicles, utility vehicles and HGVs
- Parking badges with bar codes granting your exhibitors access to your car park.

USEFUL TIP
- Your reservations are valid for the length of your event.
- Our car parks are open from 8am to 11pm (or later, in case of evening opening hours).
- Vehicles can exit at any time, day or night.

BARRIER HIRE
Viparis can provide you with barriers.

SERVICES PROVIDED
- Hire and delivery of equipment and pickup after event (excluding personnel) at an agreed-upon location.
- This service does not include positioning of the barriers prior to the event.

TRAFFIC CONTROL
To ensure smooth traffic conditions for your exhibitors during setup, we offer a traffic control service that includes management of vehicle movements, access control and parking in the vicinity of pavilions and delivery zones.

SERVICES PROVIDED
- Management of vehicle movements by qualified personnel
- Access control, identification and vehicle parking
- Contacting exhibitors if there is a need to move vehicles
- Walkie-talkies
- The use of ancillary areas (subject to availability)

HANDLING SERVICE
Viparis can provide a handling service. A team can be made available to help your exhibitors unload their materials and carry them to their stands. This service is free for users.
Please contact your Project Manager.

REFERENCES AND RATES
Rates on request. Please contact your Project Manager.

REMINDER
The number and location of parking places allocated are decided at the coordination meeting. Viparis will accept the return of any unused parking spaces within the limit of 10% of the quota ordered, no later than the first day your event opens to the public. After this, unused parking places will be invoiced.
Meeting rooms

With 46 meeting rooms, Paris Expo Porte de Versailles can configure rooms adjacent to your exhibition spaces. They can be personalised in a number of ways: modular or standard partitions, blackout curtains, carpet tiles, a dais, chairs, a lectern, audiovisual material, etc...

USEFUL TIP
Ask your Project Manager about other specific services such as:

- A more elaborate sound system
- Video
- Stage lighting
- Internet access and IT equipment
- Simultaneous interpretation
- Specific furniture requirements
- Signage
- Floral decoration
- Reception staff

REFERENCES AND RATES
Rates on request. Please contact Sandrine SCHMITT - Sales manager - +33 6 66 71 70 31
# Meeting room services

## Services INCLUDED in your lease agreement

### TECHNICAL INFRASTRUCTURE
- General lighting
- Ventilation, cooling and heating (except during setup and breakdown)
- Technical building staff: lighting / ventilation / cooling / heating / lifts / escalators

### LOGISTICS & SECURITY
- Traffic management for delivery access (subject to Logipass use)

### SECURITY
- Fire safety control centre

### TECHNICAL EQUIPMENT
**Pavilion 7- Atrium and level 7.4 meeting rooms:**
- 1 fixed LED screen (86” or 98” depending on the room) with click & share system

**Meeting rooms in other Pavilions:**
- 1 canvas screen

### FITTINGS & FURNISHINGS
- Movable partition (1 configuration per day)
- Room furnished with Viparis furniture: tables, chairs, 1 lectern, conference table, 1 stage, racks and hangers or coat rack, 1 flipchart.
- (1 configuration per day)

### CLEANING
- Standard daily cleaning
- Upkeep of toilets

### WIFI
- Free Wi-Fi: 2.4 GHz access
  - Up to 4 Mbps per connection

### SIGNAGE
- A3 landscape format totem signpost
  - (poster provided by the client)

## EXCLUSIVE and OPTIONAL services designed to meet your needs

(provided by Paris Expo Services)

### TECHNICAL EQUIPMENT
- Handling of fixed equipment (fixtures for hanging, patching, cabling, etc.)
- Handling of audiovisual equipment (click & share system included)
- Override of your sound equipment to the venue emergency announcement system

### ELECTRICITY & FLUID SUPPLY
- Electrical connections
  - (includes on-site electricians)

### FITTINGS & FURNISHINGS
- Change of the venue movable partition and/or furniture configuration during the day

### CLEANING
- Supplementary cleaning and special cleaning services
  - (catering in the meeting rooms…)
- Dedicated toilets staff
- Dedicated cleaning staff

### INTERNET, NETWORKS & TELEPHONY
- Wired internet connections
- Customised Wi-Fi
- Dedicated data networks (VLAN, WLAN)
- Telephone lines and special lines

### SIGNAGE
- Signage on infrastructure and existing supports
Conference rooms

Hire of offices / Mezzanine central management office

Paris Expo Porte de Versailles has various spaces that can be set up as offices, press rooms or headquarters, for example. Your Project Manager will be happy to review your requirements.

**SERVICES PROVIDED**

This service includes use of the premises throughout your event.
At Paris Expo Porte de Versailles, your visitors and exhibitors are provided with the best possible welcome. The difference is in the details, and our teams are fully aware of this. This is why we can serve as intermediaries between you and our service providers – trusted partners who have been carefully selected for you!

**INSTALLATION**

Our experience, our efficient logistical resources and our thorough knowledge of the site allow you to benefit from quality installations and services to provide your guests with a warm welcome.

**STAND INSTALLATION**

**SERVICES PROVIDED**

- Needle punch carpeting with protective polyane coating (a choice of colours)
- Melamine partitions (a choice of colours): aluminium structure
- Recto-verso sign (including company name and stand number)
- Minimum surface area of 9 sqm
- Optional: electrical connection and three-spot track lighting for 9 sqm of furnished stand

**REFERENCES AND RATES**

Price on request. Please contact your Project Manager, who can oversee the entirety of stand installation, from the design stage to completion.

**FLORAL DECORATION**

Your event – your colours. Embellish your installation with floral or plant decorations, a theme-based decor or a special atmosphere.

**SERVICES PROVIDED**

- Project design
- Hire of plants and accessories
- Décor installation and removal

**REFERENCES AND RATES**

Price on request. Please contact your Project Manager.
Showcasing your stand is essential for successful participation in a trade exhibition. To enhance your visibility and stand out from the competition, lighting up your products is one of the best ways to create a cosy and welcoming atmosphere and attract visitors to your stand.

Drawing on our experience in this area, VIPARIS offers a selection of lighting trusses with spotlights that adapt to the layout of your stand and contribute to your success.

Available in kits of different formats or as a customized service, all our offers include a Sustainable Development dimension and use only energy-efficient LED spotlights to reduce your electric power supply.

Hoist- or motor-based lifting solutions complete our offer if you wish to use your own lighting trusses or fasten structural elements at your stand.

**READY-TO-USE LIGHTING TRUSS KITS**
- Available in four formats to adapt to the layout of your stand: linear, square, rectangular, circular
- Each format is available in different sizes and in warm or cool ambiance lighting
- Easy to order. Each kit includes slings, the lighting truss, LED spotlights, installation and removal, and spotlight adjustment
- Environmentally friendly. The kits are exclusively equipped with energy-efficient LED spotlights
- Compliant with regulatory and site safety standards

**CUSTOMIZED LIGHTING TRUSSES**
- We work with specialised partners who have great expertise in showcasing products on display
- Adaptable to the specificities of your stand and the products on display based on your technical brief for the choice of dimensions, formats, and spotlight type
- Can be fitted at the same time as the slings to save time during installation
- Decorations or signs can also be integrated if necessary
- Compliant with regulatory and site safety standards

**READY-TO-USE LIGHTING TRUSS KITS**

**LINEAR KITS**
- Available in different lengths from 3 to 15 m
- Include:
  - 3 to 14 adjustable LED spotlights, with warm or cold light settings
  - The necessary slings
  - Installation, removal and adjustment of lights to your product displays
  - Certificate of regulatory compliance
OUR SERVICES

LES KITS LINÉAIRES

SQUARE OR RECTANGULAR KITS

♦ Available in different sizes from 4 to 8 m sides
♦ Include:
  • From 6 to 16 LED spotlights depending on the chosen format, with warm or cold light settings
  • The necessary slings
  • Installation, removal and adjustment of lights to your product displays
  • Certificate of regulatory compliance

CIRCULAR KITS

♦ Available in different sizes from 3 to 6 m in diameter
♦ Include:
  • From 4 to 10 LED spotlights depending on the chosen diameter, with warm or cold light settings
  • The necessary slings
  • Installation, removal and adjustment of lights to your product displays
  • Certificate of regulatory compliance

LIFTING SERVICES

MANUAL CHAIN HOIST LIFTING

• Lifting service with 1 to 6 manual chain hoists
• Includes the hoists, the lifting service, securing the lifted structure, and removal.

MOTOR HOIST LIFTING

• Lifting service with 1 to 10 motor hoists
• Includes motors with a capacity of 250 kg, the 2-stage lifting service (working height then final height), securing the lifted structure, and the reverse operation for removal.

REFERENCES AND RATES

You can contact your Project Manager for any questions and information.
Let Viparis provide your visitors, delegates and spectators with an outstanding welcome. Our customised offer can help you manage your cloakrooms and reception areas.

**WHAT WE OFFER**
- **Reception services**: dedicated spaces for welcoming guests
- **Cloakrooms**: permanent or temporary coat-check areas
- **Reception staff**: bilingual professionals to staff reception desks and cloakrooms

**THE BENEFITS**
- Turnkey reception and cloakroom services
- An experienced team of professionals to help you organise your event
- We work with experienced hospitality providers with the highest customer service standards

Persons with reduced mobility
Access
Nearby hotels
CENTRAL WALKWAY
Reception areas, concierge service, restaurants, ATMs, lounge areas fitted with connected furniture, toilets with baby changing areas, etc.

CONFERENCE ROOMS
Paris Expo Porte de Versailles has 46 conference rooms.

ATMs
ATMs are available in the Service Centre, alongside Pavilion 3 and in front of Pavilion 1.

TOILETS
Check one of the complex’s many maps to find the closest washroom.

Wi-Fi
There is free Wi-Fi access in all of the common areas at Paris Expo Porte de Versailles, as well as in the pavilions.

TAXI
A taxi stand is located just outside the complex, next to Gate A1.

NEWSAGENT
The Relay newsagent welcomes you in the Service Centre at Gate A2. You can find your favourite newspapers and magazines, as well as snacks and basic necessities (adapters, chargers, sticking plasters, wet wipes, etc.).

CATERING
40 bars and restaurants in the pavilions as well as McDonald’s, Paul and Le Perchoir.
For more information on the rules relating to catering, refer to the Lessee’s Information Booklet.
Caterers

Catering is not paid for by the consumer (i.e. payable on invoice, no on-the-spot payment). It may take the form of coffee breaks, cocktails, buffets, lunches, lunch boxes, technical catering, animation, snacks, refreshments, etc. offered by an organiser or exhibitor to its clients at a stand or in one of the site’s rooms.

There is no exclusivity on the Paris Expo Porte de Versailles site (excluding the Paris Convention Centre). All caterers are authorized to provide services on the site if they declare themselves to Viparis Porte de Versailles before the service is provided and finalize a one-time contract on the basis of a fee of 10% of the turnover of services in the Park. (catering, equipment and personnel). HORETO also ensures «Catering» services and is subject to the same contractual conditions of fees. The «Catering» services are subject to an exclusive listing for corporate events and congresses at the Paris Convention Centre and its adjoining areas.

The list of referenced caterers is available on the viparis.com website.

For additional information, please contact Viparis’s Catering Department: Myriam MOTTIN Tel.: +33 7 60 86 65 23 myriam.mottin@viparis.com

**IT NETWORKS**

To make several devices communicate with each other (PCs, printers, etc.) beyond the cabling package, you will need to set up a virtual local area network (VLAN). Setting up a VLAN requires at least 1 LAN zone and 1 LAN point. If you need Internet on the VLAN, you will need to add bandwidth.
