Innovative audio-visual
solutions for your
augmented events

The boom in augmented events, combining physical and digital formats, has triggered upheavals in the way that we design, produce and deliver events to audiences. These offer new paths to explore to fully exploit the content of an event and reach a wider and more distant audience, in order to build connections and engage with communities 365 days a year.

Viparis offers you innovative solutions.

Discover our simple, integrated and attractive audio-visual solutions designed to help you gain in efficiency and agility, and reduce your costs and risks.

Your needs

▷ Stream your content

▷ Organise a panel discussion
with speakers and audiences
in several places

**HD filming
and streaming**

01

**Dual /
multiple venue**

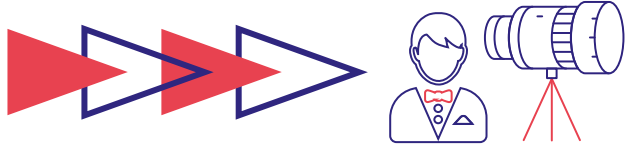

02

HD filming and streaming

01

HD filming and screaming

ABOUT

We film and record your event in high definition, in the halls or rooms of your choice, with our equipment and our technical teams.

The programme produced can then be streamed: we provide a web link (url or Vimeo iframe).

Equipment

Pre-installed **STREAMING**

- ▶ Viparis téléport
- ▶ Haivision / Aviwest encoder
- ▶ Haivision / Aviwest gateway

Benefits

- ▶ Simplicity and ease of deployment
- ▶ HD quality
- ▶ Operational efficiency
- ▶ Highly competitive prices

Prices*

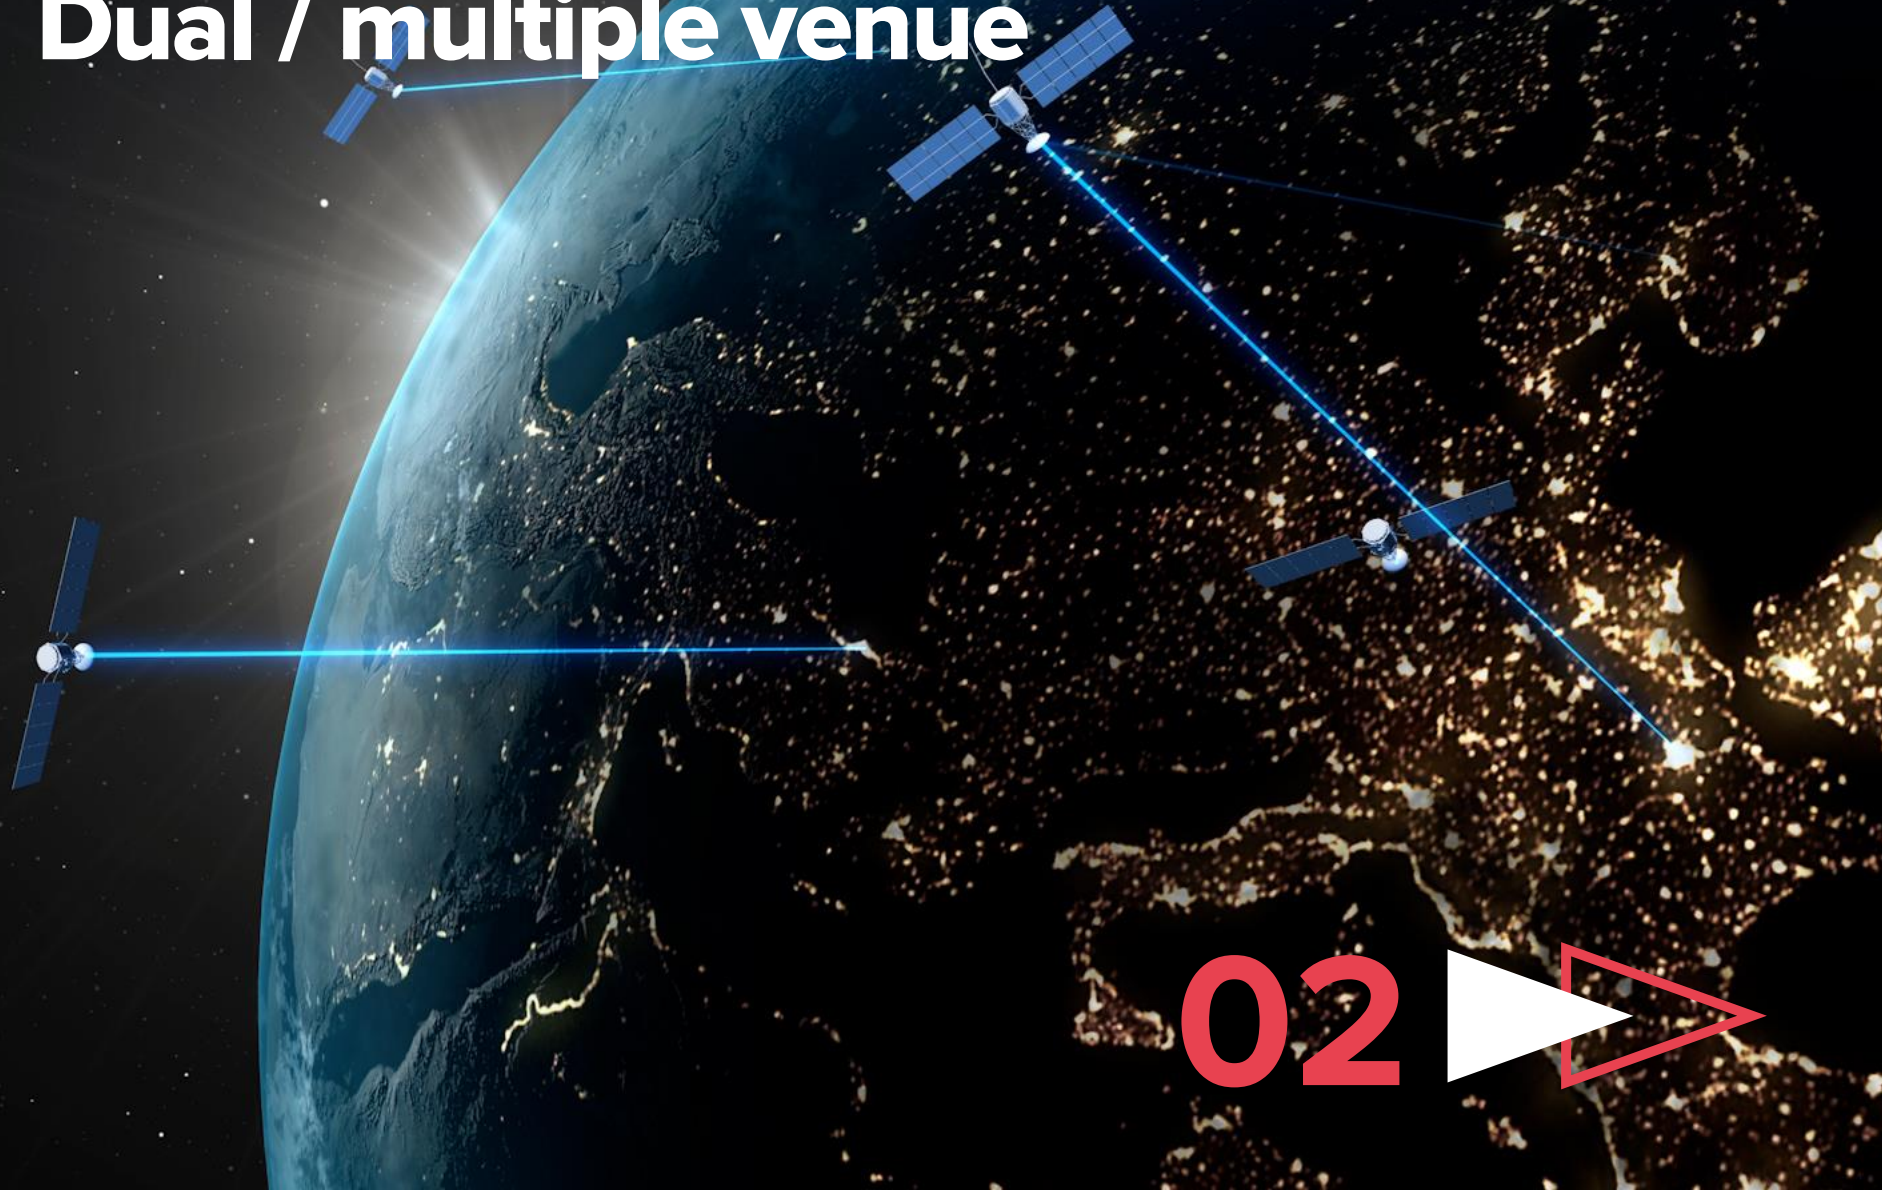

Starting at €2,300 excl VAT for 1 day and 1 room

- ▶ €1,500 excl VAT for other rooms
- ▶ €1,000 excl VAT for following days
- ▶ Staff, equipment and Internet included

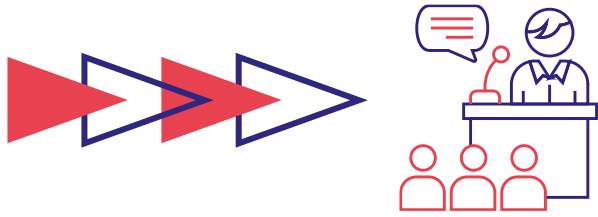

* 2023 prices

Dual / multiple venue

02

Dual / multiple venue

ABOUT

In addition to high definition filming, we also broadcast pictures to one or several rooms, furthermore allowing interaction with participants.

The rooms in the Palais des Congrès de Paris are interconnected; the participants in one room can ask questions to speakers in other rooms without latency.

We can deploy Ultra Low Delay links with remote sites.

Equipment

SST CONNECTION

- ▶ Haivision / Aviwest encoders
- ▶ Haivision / Aviwest gateway

NDI CONNECTIN
